SCHOOL TABLE

Educate

From table to desk with just one motion

An increasing number of schools are recognising the importance of healthy work conditions for their students and are furnishing classrooms with combined sitting/standing solutions.

Our school table frames EDUCATE and EDUCATE FLEXO address this issue through continuous height adjustment (height 4-7 per DIN EN 1729) using mounted pneumatic springs.

EDUCATE FLEXO can also be slanted up to a 13° angle using a 5-step grid adjustment, making reading and writing more comfortable.

Flexible use

With EDUCATE, you can put modern teaching methods into practice: small work groups, personalised learning or half circle arrangements for discussions and presentations. Two rubber rollers at the cross-shaped base help to move the tables quickly and easily.

- table top size
650 x 650 mm to 800 x 600 mm
- total carrying capacity: 20 kg incl. table top

Educate Flexo

- with inclinable table top (13° angle)
- table top size 650 x 650 mm to 800 x 600 mm
- total carrying capacity: 20 kg incl. table top

SCHOOL TABLE

Look Up

Fast and efficient learning

Studies show that searching for information while standing is more effective and requires less time than while sitting.

Our table frame LOOK UP is the perfect solution. The height of this wall-mountable standing work station can be set manually with a simple hand trigger.

- max. table top size 650 x 650 mm
- total carrying capacity:
18 kg incl. table top

No wobbling
2 x two-point wall mounts

SCHOOL TABLE

Progress

From table to desk with just one motion

Gone are the old, heavy and inflexible desks. Today, even teachers consider healthy work conditions important.

Our table frame Progress is versatile: whether as a standing desk, group work table, table for casual discussions - a classroom can be quickly rearranged to create a dynamic lesson.

- max. table top size 800 x 1200 mm
- total carrying capacity: 25 kg incl. table top

Stable even during lively discussions: Duo-Lift column with integrated compression spring

Quick Facts — technical data at a glance:

- Quickly and continuously adjustable
- Adjustment range: 640 mm – 1060 mm
- Stroke: 420 mm
- Internal, locking compression spring
- Stable low resistance roller guides
- Precision steel pipe, 70 mm ∅
- Colors: Silver (9980), Black (9911)
- Foot adjuster, rubberized, for height levelling
- Optional: Bag hook
